**Flex foil** ■ The very thin flexible flex foil has a smooth surface and is suitable for almost all textile substrates. The very high opacity and good elasticity, this foil is particularly suitable for intricate designs. Using a knife plotting the subject is cut out and then transferred with a press at 150 – 180 °C to the textile. In addition to the standard colors can neon colors, glitter and metallic effects are used. The flexible foil is up to a maximum temperature 40 °C machine washable.

### Care recommendations ■ for textiles that have been printed with our transfer foils

- turn the fabric before washing, drying and ironing on the left
- hand or machine wash up to 40 °C
- use only mild detergent without bleach additive (eg fine or colored fabrics, no washing powder)
- wash without adding fabric softener
- not in the drum dryer/tumble dry
- do not dry clean

**In any case, the maintenance manual of the textiles are to be considered!**

### EMBROIDERY (from 10 possible)

- Cost per 100 cm<sup>2</sup> at approximately 7,90 € VAT

**The best way to tell us the exact numbers with from what you need and send us the respective logos in EPS format and we offer you the exact costs.**
